

CURRICULUM VITAE

Christopher A. Clark

Department of Plant Pathology &
Crop Physiology
Louisiana State University
Baton Rouge, LA 70803-1720
Phone: (225)-578-1381, FAX: (225) 578-1415
E-mail: cclark@agctr.lsu.edu

Education:

Doctor of Philosophy, Cornell University, May 1976
Major - Plant Pathology, Advisor - Dr. J. W. Lorbeer
Minors - Soil Microbiology, Advisor - Dr. Martin Alexander
Plant Physiology, Advisor - Dr. H. B. Tukey, Jr.
Thesis title - "Histopathology and Leaf Surface Relationships of *Botrytis squamosa* and *B. cinerea* on Onion"

Master of Science, Cornell University, January, 1973
Major - Plant Pathology, Advisor - Dr. J. W. Lorbeer
Minor - Soil Microbiology
Thesis title - "The Botrytis Brown Stain Disease of Onion (*Allium cepa* L.) Caused by *Botrytis cinerea* Pers."

Bachelor of Science, Cornell University, June, 1970.
Major - General Agriculture, Advisor - Dr. C.W. Boothroyd

Professional Experience:

Professor - 1987 to present. Presently 86% research, 14% teaching appointment.

Associate Professor - 1981-1987. Assumed 10% teaching appointment with responsibility for teaching phytobacteriology in 1986.

Assistant Professor - 1977-1981, Department of Plant Pathology & Crop Physiology, Louisiana State University, Baton Rouge, LA. Full time research appointment in the Louisiana Agricultural Experiment Station to conduct research on diseases of sweetpotato.

Postdoctoral Research Associate, Department of Plant Pathology, North Carolina State University, Raleigh, NC. Conducted research on the etiology and control of seedling and nematode diseases of cotton and on the interaction of soil-borne fungi and nematodes on cotton. (1976 to 1977)

Undergraduate Research Assistant, Department of Plant Pathology, New York State

Agricultural Experiment Station, Geneva, NY. Assisted Dr. J. J. Natti in research on diseases of snap beans, dry beans, and crucifers. (Summers, 1966 to 1969)

Teaching:

Plant Health 7011 - Phytobacteriology. Graduate level course on plant pathogenic bacteria. (1987 - 5 students, 1989 - 6 students, 1991 - 9 students, 1993 - 7 students, 1995 - 5 students, 1997 - 6 students, 2001 - 7 students, 2005 - 3 students).

Plant Health 4000 - General Plant Pathology. Undergraduate level course in general plant pathology (1979 - 25 students, 2007 - 15 students; 2009 – 21 students; 2011 – 23 students; 2013 – 19 students). I taught one lab on bacterial plant diseases annually from 1989 to 1999.

Plant Health 4012 and 4013 - Diseases of Horticultural Crops and Diseases of Agronomic Crops and PLHL 4014 - Diseases of Economic Crops. Taught sections on diseases of sweetpotatoes.

Plant Health 7003 - Disease Diagnosis and Control Practices. Taught a lecture and lab on bacterial disease diagnosis.

Plant Health 7052 - Seminar. Coordinated the departmental seminar, Spring 1980 and 1981, Fall 1998, Spring 2003, Spring 2004, Fall 2007, Fall 2010.

Plant Pathology 7051 - Current Topics in Plant Pathology. Developed and taught a course on general plant pathology for graduate students who had completed Plant Pathology 4000 or the equivalent. The course was taught in the Spring of 1979 and had an enrollment of 6 plant pathology graduate students.

Plant Health 8800 - Practicum in Plant Pathology. Organized the course and served as coordinator 2004 to 2009. Taught sections on sweetpotato diseases and with Drs. Hollier and Overstreet sections on disease diagnosis. 2009-2013 – responsible for the summer semester.

Veterinary Microbiology and Parasitology 7404 - Pathogenic Mechanisms of Bacteria. Presented a guest lecture on Pathogenic Mechanisms of Plant Pathogenic Bacteria, Spring, 1990.

Plant Pathology Journal Club - organized with other faculty and graduate students an informal group discussion of current research and review articles in plant pathology.

Teaching Assistant - Plant Pathology 301, Introductory Plant Pathology, Cornell University, Spring, 1971. Professor-in-charge - Dr. C. W. Boothroyd

Extramural Funding Obtained:

USDA, SEA Competitive Grant No. 5901-0410-8-1267-0, "Induction and Inheritance of Furanoterpenoid Accumulation in Sweet Potatoes". The sum of \$50,000 was granted to C. A. Clark and T. P. Hernandez for two years beginning November 1, 1978.

USDA Contract No. 12-14-7001-1155, "Integrated Pest Management Approach to the Sweet Potato Breeding Program". The sum of \$65,000 was allocated to L. Rolston, C. A. Clark, and T. P. Hernandez for two years beginning April 1, 1979.

USDA Specific Cooperative Agreement 58-43YK-7-0018, "Evaluation of Sweet Potato Germplasm for Storage Rot and Soil Rot Resistance". The sum of \$71,810 was granted for the period 1987-1989.

Louisiana State University College of Agriculture, Research Initiation Grant, "Etiology of Sweet Potato Chlorotic Leaf Distortion and Sweet Potato Chlorotic Little Leaf", The amount of \$10,000 was granted to C. A. Clark for 1984-1985.

Louisiana Sweet Potato Advertising and Development Commission has supported the sweetpotato disease research program annually since 1978. Support for that period varied from \$3,800 to 14,000 per year (total for 1977 to 2005 = \$224,410; 2006 = \$7,000; 2007 = \$8,000; 2008 = \$7,800; 2009 = \$4,500; 2010 = \$6,700; 2011 = \$8,300).

The Louisiana Soybean and Grain Research and Promotion Board contributed \$20,000 during 1987-88 for research on delayed maturity of soybeans.

The Louisiana Soybean and Grain Research and Promotion Board has contributed \$40,500 to S. A. Harrison (Agronomy), C. A. Clark, J. S. Russin, and P. D. Colyer (Red River Station) during 1989-94 for research on bacterial leaf streak of wheat.

A grant of \$5,000 was made by the International Potato Center in 1988 and a three-year grant of \$25,000 was initiated in 1989 for research on sweet potato chlorotic leaf distortion by C. A. Clark, D. R. La Bonte, and R. A. Valverde. A second three-year contract was awarded in 1992 for \$30,000.

The USDA, ARS Germplasm program funded the proposal: "Evaluation of the United States Plant Introduction Collection for Reaction to the Reniform Nematode, *Rotylenchulus reniformis*", by D. R. La Bonte, G. W. Lawrence, and C. A. Clark. The amount of \$9,000 for FY 1993 was awarded.

The USDA Foreign Agricultural Service, International Cooperation and Development, Research and Scientific Exchanges Division funded a proposal for an exchange team visit to the People's Republic of China by D. R. La Bonte, C. A. Clark, J. M. Cannon, M. M. Norton, and P. W. Wilson entitled "Sweetpotato Pest Detection and Screening, Biotechnology, Breeding Methodology, Germplasm, Cultural Practices and Developing Collaborative Research with the People's Republic of China". The Chinese Ministry of Agriculture paid travel expenses within China of approximately \$4,000 per person.

USDA, ARS Research Agreement No. 58-6607-8-008, for Germplasm Evaluation was funded for \$7,800 for two years to C. A. Clark. It was entitled: "Evaluation of Resistance in Sweetpotato (*Ipomoea batatas*) to races of the Fusarium wilt pathogens *Fusarium oxysporum* ff. sp. *batatas* and *nicotianae*".

USDA, APHIS Grant Award No. 99-8100-0514-GR, by C. A. Clark, R. A. Valverde, J. W. Moyer, and R. L. Jarret entitled: "Proposal to Survey Sweetpotatoes in the United States for the Presence of Viruses" was funded in the amount of \$9,758 for calendar year 1999. It was refunded for \$14,319 in 2000 and again in 2001.

The International Potato Center provided \$16,500 to C. A. Clark and R. A. Valverde under a Memorandum of Understanding; "Identification of Major Potyviruses in Sweetpotato in Peru and Louisiana" for 2001.

Cooperative Agreement No. 58-6402-4-031 with USDA, ARS, Southern Insect Management Research Unit, Stoneville, MS: "Survey for Viruses in Sweetpotatoes and Wild Related Species and for Field Resistance to Viruses in Sweetpotato Breeding Lines" by C. A. Clark and R. A. Valverde provided \$24,000 for the period March, 2004 to March, 2005 and \$7,805 for the period March, 2005 to March, 2006.

USDA, CSREES, RAMP Grant Award No. 370831201-02106 provided \$2,000,000 for the period 2003-2007 to a multi-state, mutli-disciplinary team led by George C. Kennedy, North Carolina State University for a project entitled: "Development of Grower Decision-making Tools to Reduce Risk and Enhance Sustainability of Southern Sweetpotato Pest Management Systems". C. A. Clark was PI for the LSU AgCenter contract totaling \$394,575, with A. Hammond and R. Story as co-PIs.

Louisiana Board of Regents Support Fund (ITRS subprogram) funded \$118,000 for 2006 to 2008 to LaBonte, D. R., Clark, C. A., McGregor, C., and Kokkinos, C. for a project entitled: "Sweet Potato Virus Disease: Characterizing sweetpotato plant response to infection and identification of molecular markers for resistance breeding".

USDA Specific Cooperative Agreement 58-6607-7-101 funded \$15,600 for 2007-2008

and \$13,650 for 2009-2010 for the proposal: "Evaluation of sweetpotato germplasm for resistance to *Sweet potato leaf curl virus*".

USDA Specialty Crop Research Initiative funded \$2,841,987.00 for 2009-2012 to Smith, T. P. (LSUAC), LaBonte, D. R. (LSUAC), Villordon, A. Q. (LSUAC), Clark, C. A. (LSUAC), Picha, D. (LSUAC), Miller, D. (LSUAC), Arancibia, R. A. (Miss. St.), Schultheis, J. (North Carolina State), Stoddard, S. (UC, Davis) for the proposal: "Participatory Modeling and Decision Support for Improving Sweetpotato Production Efficiency, Quality and Food Safety".

Royalties (55% share) received for virus-tested sweetpotatoes from Kleentek/Thermo Trilogis (now Certis USA): 2001 = \$4,000; 2002 = \$5,080; 2003 = \$4,000; 2004 = \$1,925; 2005 = \$1,925; 2006 = \$2,392.50; 2007 = \$1,100; 2008 = \$1,100; 2009 = \$1,900; 2010 = \$1,100; 2011 = \$1,760; 2012 = \$1,100.

Royalties accrued to department for patented sweetpotato cultivars: 2009 = \$1,402; 2010 = \$1,255; 2011 = \$3,092; 2012 = \$5,525.

Chemical company grants for the period 1979 to 2012 totaled \$46,400.

Honorary Society Memberships:

Member - Phi Kappa Phi, Gamma Sigma Delta
Associate member - Sigma Xi

Professional Affiliations:

The American Phytopathological Society

Awards:

"Mr. Yam" of the Grand Louisiana Sweet Potato Festival, 1990
Distinguished Service Award presented by the Louisiana Sweet Potato Association,
January, 1997
"King" of the Grand Louisiana Sweet Potato Festival, 2001
Tipton Team Research Award to the Sweetpotato Team by the LSU AgCenter, 2002
Doyle Chambers Research Award presented by the LSU AgCenter, December 15, 2008
Outstanding Plant Pathologist presented by the Southern Division, American
Phytopathological Society, February 9, 2010.

International Symposium Participation:

September, 1975, presented a paper on; "Development of *Botrytis squamosa* and *B. cinerea* on the surface of onion leaves as affected by exogenous nutrients and

epiphytic bacteria" in an international symposium at Leeds University, Leeds, UK, entitled "Advances in the Microbiology of the Aerial Surfaces of Plants".

February, 1987, presented a paper entitled; "Principal Fungal and Bacterial Diseases of Sweet Potatoes and Their Control" at the Planning Conference on Exploration, Maintenance and Utilization of Sweet Potato Genetic Resources sponsored by the Centro Internacional de la Papa in Lima, Peru.

June, 1991, presented a paper entitled; "Disease Factors in Breeding and Biotechnology of Sweetpotato" in an International symposium at Tuskegee University entitled: "Sweetpotato Technology for the 21st Century".

September-October, 1995, part of a five-person group from LAES that was funded by USDA, OICD for "Scientific Exchange on Sweetpotato Pest Detection and Screening, Biotechnology, Breeding Methodology, Germplasm, Cultural Practices, and Developing Collaborative Research with the People's Republic of China". Presentations were made at: Beijing Agricultural University, Xuzhou Sweetpotato Research Center, Jiangsu Academy of Agricultural Sciences, Zhejiang Agricultural University, and the Guangdong Academy of Agricultural Sciences.

December, 1997, presented a paper entitled; "Prospects and Problems in Managing Sweetpotato Diseases" in the International Workshop on Sweetpotato Production System toward the 21st Century held at Miyakonojo, Japan.

September, 2000, helped organize and made two presentations at an International Workshop on Sweetpotato Cultivar Decline Study in Miyakonojo, Japan.

November, 2001, gave a keynote presentation: "Research for Improved Management of Sweetpotato Pests and Diseases: Cultivar Decline and Postharvest Losses" at an international symposium on "Sweetpotato: Food and Health for the Future", co-sponsored by the International Potato Center, the International Society for Society for Horticultural Science and Universidad Nacional Agraria La Molina, held in Lima, Peru.

Professional Services:

Scientific peer review, competitive grant proposals for:

National Science Foundation

Binational Agricultural Research and Development Fund

USDA, SEA and NRI, Competitive Grants Office

USDA, Small Business Initiative

International Foundation for Science

USDA Blue Ribbon Panel to evaluate research on the Florida nursery strain of *Xanthomonas campestris* pv. *citri* - Gainesville, FL, March 1988.

USDA, ARS Review team member, review of S-9 Southern Regional Plant Introduction Station Program, April, 1992.

American Phytopathological Society -
 Soil Microbiology and Root Diseases Committee (1980-1982)
 Associate Editor, *Phytopathology* (1982-1984)
 Plant Nematology Committee (1982-1986)
 Vice-chairman, 1984 and Chairman, 1985
 Associate Editor, *Plant Disease* (1986-1988)
 Senior Editor, *Plant Disease* (1989-1991)
 Southern Division, chairman, Archives Committee (2002-present)
 Southern Division, vice president, president-elect, president 2006-2008.

Society of Nematologists -
 Placement Committee (1983)

National Sweet Potato Collaborators
 Chairman-elect - 1991, Chairman - 1992
 Disease, Insect, and Genetics Committee -
 Vice Chairman (1981-1983), Chairman (1983-1985)
 Nominations Committee - Chairman, 1982
 Planning Committee for "50 Years of Progress" publication.

USDA Sweet Potato Crop Advisory Committee (1984-present)
 Chairman - 1994-1997.
 Review team member to review USDA, NPGL-QU sweetpotato quarantine program.

Secretary, Louisiana Association of Plant Pathologists and Nematologists. (1978-1979)

Louisiana State University
 Faculty Senate Library Committee - member 1995-1998, chairman 1997-1998
 Distinguished Dissertation Review Committee, Sciences and Engineering - 1996

Louisiana State University, Agricultural Center
 Sweetpotato Research Advisory Committee, Chairman 1990-1996.
 LAES Strategic Planning, Focus 2000 - Goal 1 Commodity Committee -
 "Vegetables, Sweetpotatoes, Potatoes, Ornamentals, and Turf".
 College of Agriculture Faculty Policy Committee (1983-1985), Secretary (1984-1985)
 Agricultural Engineering Department Head Search Committee (1984)
 Editorial Board, *Louisiana Agriculture* (1988-1990)
 College of Agriculture Promotion and Tenure Committee (1989-1991)
 LAES Research Priority Committee (2004)
 LSU AgCenter Promotion and Tenure Committee (2004, 2005)
 Sweetpotato Extension Specialist Search Committee (2006)
 Sweet Potato Research Station Research Coordinator Search (2006-2007)
 Sweet Potato Extension Specialist Search Committee (2013)

Plant Pathology and Crop Physiology Department
 Faculty Advisor, LSU Plant Sciences Graduate Student Organization. (1977-1979)
 Student Admissions and Standards Committee, 1983-84
 Promotion and Tenure Committee, 1984-86, 1988-1991, 1994-1996, Chairman,

1990.

Department Publications Coordinator, 1984-1986
Co-chairman, 1985 CSRS Review Document Committee
Chairman, Department Standing Committee on Research, 1985-1986
Member, Department Advisory Committee, 1985-1986
Member, Student Standards Committee, 1990-2001, Chairman 1994-2001
Member of the following search committees:
Department Head, 1983
Soil Microbiologist, 1984
Weed Scientist, 1984
Biotechnologist III, 1985
Virologist, 1987
Department Head, 1990
Mycologist (chairman), 2007
Phytobacteriologist, 2007
Chairman, Department committee on space reallocation (1988, 1989)
Department Strategic Planning Committee, Chairman 2001-2002
Courses and Curriculum Committee member (2004-2006)

Graduate Students:

Major advisor for the following students:

Ronald J. Thomas, PhD, 1982.
Gary W. Lawrence, PhD, 1984.
Alice Karikurubu, MS, 1984.
Jing-yi Lo, PhD, 1986.
Michael Mooney, did not complete degree.
Valmir Duarte, PhD, 1990.
Kenneth C. Stetina, MS, 1995.
Chiliang Chen, MS, 1997.
Eliezer R. Souto, PhD, 1998 (coadvisor with R. A. Valverde)
Heather Wallace, MS 2003 (coadvisor with D. R. La Bonte)
Jianye Chen, PhD did not complete degree.
Laura Mckoin, MAg, 2005.
Charalambos Kokkinos, PhD 2006.
Everlyne Wosula, PhD, 2012.
Washington da Silva, MS, 2013.

Committee member for:

Sreedar Alwala, PhD, Agronomy, 2007
Ramon Arancibia, MS, Plant Pathology, 1994
Steve Brewer, PhD, Botany, 1993
Mario Buteler, PhD, Horticulture, 1996
Guohong Cai, MS, 2001, PhD, Plant Pathology, 2004
Ashok Chanda, PhD candidate, Plant Pathology

Se-chul Chun, PhD, Plant Pathology, 1997
Ed Cleveland, PhD, Plant Pathology, 1980
Matthew Ducote, PhD, Biological Sciences, 2003
Don Dufresne, MS, Plant Pathology, 1998
Roberto Dwidjosewojo, PhD, Horticulture, 1980
Karol Elias, PhD, Plant Pathology, 1989
Elif Erturk, PhD, Horticulture, 2000
John Frantom, PhD, Plant Pathology, 1981
Roy French, PhD, Plant Pathology, 1983
Florentino Fernandes, MS, Plant Pathology, 1989
Jake Fountain, MS, 2013, Plant Pathology
Felix Francis, MS, 2012, Plant Pathology
Clifford Gabriel, MS, Plant Pathology, 1980
Mala Ganiger, MS candidate, Plant Pathology
Freddy Garces, PhD, Plant Pathology, 2011
Dina Gutierrez, PhD, Plant Pathology, 2008
Mark Jones, MS, Plant Pathology, 1992
Anthony Kili, PhD, Horticulture, 2000
BongKyoo Kim, MS, Horticulture, 1993
Choong-Hoe Kim, PhD, Plant Pathology, 1986
Charalambos Kokkinos, MS, Horticulture, 2001
Wendy Kursell, MS, Agronomy, 1991
Monica Lear, PhD, Plant Pathology, 1994
Rebecca Melanson, PhD candidate, Plant Pathology
Yong-Hwan Lee, PhD, Plant Pathology, 1991
Yuen Lee, MS, Plant Pathology, 1989
Xiaowen Liang, MS, Plant Pathology, 1998
Tzu-yin Liu, MS, Plant Pathology, 1987
Xiuling Liu, MS, Plant Pathology, 1998
Silvio Lopes, PhD, Plant Pathology, 1996
Pongtharin Lotrakul, PhD, Plant Pathology, 2000
Cecilia McGregor, PhD, Horticulture, 2006
Bond McInnes, PhD, Plant Pathology, 1989
Roland Massaquoi, PhD, Plant Pathology, 1988
Generosa Medrana, Horticulture
Douglas Miano, PhD, Horticulture, 2008
Donald Nelsen, MS 2013, Plant Pathology
Olga Odiott, Plant Pathology
Charles Overstreet, PhD, Plant Pathology, 1988
Meghanathan Pillay, MS, Plant Pathology, 1986
Roberto Rivas, MS, Horticulture, 1991
Rodney Roberts, MS, Plant Pathology, 1982
Andrew Rodriguez, MS, Plant Pathology 2011
Dip Sah, PhD, Plant Pathology, 1986
Carolyn Sevario, MS, Plant Pathology, 2002

Eric Siegel, MS, Plant Pathology, 1997
Jeonggu Sim, PhD, Plant Pathology, 2001
Rebecca Sweany, MS, Plant Pathology, 2009
John Tappan, MS, Agricultural Engineering, 1988
Barry Tillman, PhD, Agronomy, 1994
Sheng-Wu Wang, Horticulture
James Young, did not complete degree

Others:

Doña Robinson, Bayou II program, 1992

Postdoctoral Associates and Visiting Scientists

Randall Kelley - 1986-1987 - research on etiology of delayed maturity of soybean.
Jae-wook Hyun - 1996 - research on RAPD analysis of *Fusarium denticulatum* and
Fusarium oxysporum f. sp. *batatas*.

Invited Presentations:

Annually - research presentation to the Louisiana Sweet Potato Association,
research/extension presentation to the St. Landry Parish Sweet Potato Production
meeting.
August, 2005 - "Sweetpotato Diseases" - National Crop Insurance Society, sweetpotato
adjusters
January, 2004 - "Sweetpotato Virus Research Plans" - National Sweetpotato Council
April, 2002 - "Sweetpotato Viruses in the Southeast" - Southern Plant Board
February, 2000 - "Sweetpotato Diseases" - Alabama Sweet Potato Association.
January, 1999 - "Sweetpotato Disease Research" - 37th Annual Meeting of the Sweet
Potato Council of the United States, Inc.
February, 1999 - "Virus-tested Sweetpotato Production" - Louisiana Dept. Agric. For.,
Inspectors Training Session.
April, 1998 - "Sweetpotato Disease Identification and Management" - Extension Agents
Training Meeting.
January, 1991 - "Biology and Control of *Streptomyces ipomoea* in Louisiana" - National
Sweetpotato Collaborators annual meeting.
January, 1991 - "Bacterial Soft Rot in Sweetpotatoes - A Potential Problem" - 54th
Annual Meeting, Louisiana Sweetpotato Association.
January, 1990 - "Sweetpotato Chlorotic Leaf Distortion/*Fusarium lateritium*, A Novel
Plant/Fungus Interaction?" - Dept. Plant Pathology & Crop Physiology, LSU
February, 1989 - "Research on Soybean Delayed Maturity" - CENLA Soybean Agent
Training Meeting, Opelousas, LA.
July, 1988 - Quarantine Programs - Sweetpotato - USDA Crop Advisory Committee
Chairs Meeting, Beltsville, MD.
February, 1988 - "Update on Research Involving the Green Bean Problem (Delayed

Maturity of Soybeans" - Soybean Agent Training Meeting, West Monroe, LA.
April, 1985 - "Sweet Potato Diseases" - Dept. Plant Pathology, Cornell
University
April, 1985 - "Sweet Potato Viruses" - Dept. Plant Pathology, New York
State Agricultural Experiment Station, Geneva
March, 1984 - "Sweet Potato Viruses" - Dept. Horticulture. LSU
January, 1984 - "Sweet Potato Disease Control" - Alabama Sweet Potato
Association
September, 1983 - "Sweet Potato Viruses" - Dept. Plant Pathology &
Crop Physiology, LSU

Other Research/Service Accomplishments

Sweetpotato Cultivars - participated on the team that developed and evaluated the following sweetpotato cultivars and breeding lines that have been released by LAES. These all were screened for resistance to multiple diseases including *Streptomyces* soil rot, *Fusarium* wilt, internal cork, root-knot nematode, bacterial root and stem rot, *Fusarium* root rot, and others. The LAES program has been the primary source of resistance to *Streptomyces* soil rot.

1980 - Travis (L74-62) - grown on limited acreage in LA for several years

1981 - Eureka (L74-131) - grown on limited acreage in CA for several years

1987 - Beauregard (L82-508) - grown on approx. 80% of US acreage 1990-2005, also grown in Australia and New Zealand.

1992 - Hernandez (L82-66) - grown on approx. 5-10% of US acreage since 1995, mostly in NC

1994 - L86-33 - used as a source of multiple disease and pest resistance in U.S. and international breeding programs

1995 - Darby (L87-59) - not grown commercially to any significant extent

2001 - L96-117 - Patent No. US PP 15,038 P2 awarded to LaBonte, D., Wilson, P., Clark, C., Villordon, A., and Cannon, J.

2002 - Bienville (L94-96) - Patent No. US PP 15,580 P3 awarded to LaBonte, D., Wilson, P., Clark, C., Villordon, A., Cannon, J., Story, R., and Hammond, A.

2007 - Evangeline (L99-35) - Patent No. US 2008-0271216-P1 awarded to LaBonte, D., Villordon, A., Clark, C.

2007 - Muraski-29 (L01-29) – Patent PP19955 issued to D. R. LaBonte, A. Q. Villordon, and C. A. Clark

- 2011 – Bonita (L05-29) – Patent No. US PP22,719P3 issued to D. R. LaBonte, A. Q. Villordon, T. P. Smith, and C. A. Clark.
- 2012 – Orleans (L05-111) – Patent No. US PP23,761 issued to D. R. LaBonte, A. Q. Villordon, T. Smith, and C. Clark
- 2012 – 07-146 – Patent No. US PP23,785 P3 issued to D. R. LaBonte, A. Q. Villordon, T. Smith, and C. A. Clark

Foundation Seed Program - based primarily on research results of the team of researchers in LAES (Plant Pathology & Crop Physiology, Sweet Potato Research Station, Horticulture, and Entomology), the decision was made to convert the Louisiana Sweetpotato Foundation Seed Program at Chase, LA in 1999 to exclusive production of 'virus-tested' seed. We have processed more than 75 different sweetpotato cultivars, breeding lines, and clones through meristem-tip culture and virus indexing and maintain by nodal propagation in tissue culture the resulting 'virus-tested' plantlets of each. Currently, we provide starting material of the primary mericlones of Beauregard and Evangeline to Certis USA for micropropagation. Certis, USA in turn sells micropropagated, virus-tested tissue cultures to the foundation seed programs in Louisiana, Mississippi, and Alabama. We micropropagate all other genotypes grown at Chase, which includes additional mericlones of Beauregard, approximately a half dozen mericlones each of L96-117, Bienville, O'Henry, and Texas Porto Rico, and individual mericlones of about a dozen other genotypes.
